

# SAFE+FACE

## Protective Mask

Hi-performance anti-microbial nanotechnology

ECO-FRIENDLY  
AND RECYCLABLE

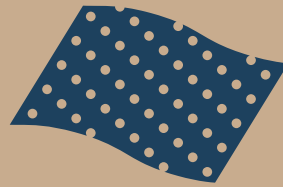

### The Safe+Face Difference

**Wash it up to 50 times.** Safe+Face is cheaper to use by a factor of **4x to 7x** times. An ordinary disposable fiber mask costs about **\$1.25** per mask, while the Safe+Face mask costs less than **\$0.30** cents per use.

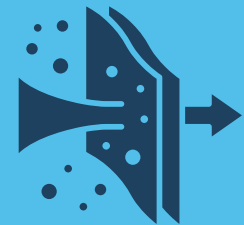

#### Comfortable

Made of lightweight, stretchy, cool and comfortable fabric that prevents abrasions or skin rashes due to prolonged use.

#### Reusable

High-performance, organic, anti-microbial, nano-technology fabric lasts 50 washes, plus it's quick drying.

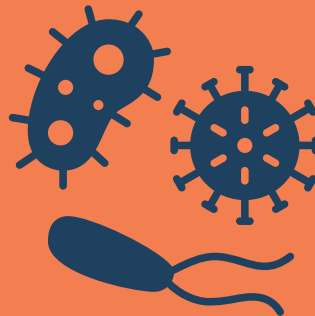

#### Breathable

In fact, the mask is equivalent to a Class II medical device due to its superior design and technology.

#### Hypoallergenic

Does not cause allergies and does not irritate the skin. Safe for children, pregnant women and seniors.

#### 99.95% Microbe elimination

Fabric tested to 99.95% microbe / bacteria elimination. Filtration efficiency is 95.0% down to particles of 5 microns.

#### Easy to wear

The 2-piece stretchy fabric makes the Safe+Mask easy to put on and take off.

Select colors from black or white.

For orders over 1,000 masks, select any other color and we will make your masks custom.
